

Cole Levy

FULL-STACK & AI ENGINEER

Saratoga Springs, NY · (518) 410-4999 · colelevy08@gmail.com
colelevy.dev · github.com/colelevy08 · linkedin.com/in/colelevy

SUMMARY

Full-stack and AI engineer who ships production software solo — React/TypeScript front ends, Python/FastAPI back ends, and LLM/agent systems (MCP, RAG, multi-provider APIs). 15+ projects shipped and three paying client retainers in production. Built Portmint, a self-serve SaaS that deploys branded, per-business AI assistants. Comfortable owning a product end to end: spec, build, deploy, and the customer conversation.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, Python, SQL, Swift
- **Frontend:** React 18, Next.js, Vite, Tailwind CSS, Framer Motion, Capacitor (iOS/Android), PWAs
- **Backend & Data:** FastAPI, Node.js, Supabase, PostgreSQL, SQLite, Square, REST, WebSockets, asyncio
- **AI Engineering:** LLM APIs (Anthropic, OpenAI), MCP, agent orchestration, RAG, prompt & agent design
- **DevOps & Cloud:** Vercel, GitHub Actions, serverless / edge functions, CI/CD, Git
- **Quant:** EV modeling, fractional-Kelly sizing, backtesting, regime detection
- **Certification:** CompTIA A+

SELECTED PROJECTS

Portmint — Self-serve AI-assistant SaaS 2026

- Turns any business website into a live, branded AI assistant in about a minute; a subscription provisions itself end to end — no human in the loop, no redeploy. React + serverless front of house; a Python/FastAPI platform builds secure, least-privilege integrations behind it; self-serve CRM for captured leads.

React · TypeScript · Python · FastAPI · Square · Vercel · LLM / agent orchestration

FableKalshi — Multi-strategy quant trading system 2026

- Async Python system trading Kalshi crypto-binary markets: four strategies plus an ensemble in parallel, with shadow-trading and automatic promotion when a candidate clears thresholds.
- Gates every order through fee- and slippage-aware EV math with fractional-Kelly sizing; automatic kill switches halt entries on drawdown, loss streaks, or stale data. Every decision logged for bit-for-bit replay.

Python · asyncio · WebSockets · SQLite

handAICapper — AI horse-racing analytics PWA (handaicapper.com) 2025

- PWA + FastAPI backend ingesting live odds and race cards; runs Kelly-fraction staking on edge-positive races and uses an LLM for natural-language pace and trip analysis.

React · Vite · FastAPI · LLM API

Bocage Champagne Society — members app on iOS, Android & web 2026

- Membership, RSVPs, ticketing, and a back-office CRM for a private club — one React + Capacitor codebase building for iOS, Android, and the web, on Supabase.

React · Vite · Capacitor · Vercel · Supabase · PostgreSQL

EXPERIENCE

Founder & Independent Software Developer, Portmint LLC — Saratoga Springs, NY 2023 – Present

- Built and operate Portmint, a self-serve SaaS with Square subscription tiers and fully automated self-serve provisioning; sole engineer across product, platform, billing, and the WordPress plugin.
- Own three production client retainers end to end — a restaurant, a private members club (iOS/Android/web apps), and an insurance practice — design through deploy and ongoing support.
- Built and operate a multi-strategy quant system for Kalshi's crypto-binary markets under EV gates, fractional-Kelly sizing, and nine hard kill switches; open-sourced its fee-aware EV/Kelly core (kalshi-edge) — plus a Polymarket copy-trading bot.

Assistant Manager, Standard Fare (Sure Thing Hospitality) — Saratoga Springs, NY Jul 2025 – Present

- Helped launch the location; own POS configuration, nightly financial close, and staff training. Concurrent with the development practice above.

Support Engineer I, cb20 — Saratoga Springs, NY Dec 2024 – May 2025

- Front-line IT support for managed-services clients; drove phone-answer rate from 30% to 95% and CSAT to 4.9/5.

EDUCATION

Flatiron School — Full-Stack Web Development (Python, JavaScript, React, Flask, SQL) 2023

SUNY Geneseo — B.A., Communication (*semesters at La Sorbonne & Sciences Po, France*) 2022

Hudson Valley CC — A.S., Entrepreneurship & Sustainable Technologies 2019
